EXPERIENCE

Whyable Technologies, Bangalore Sr. Developer

Mar 2018 – till date

Served as a Sr. Developer working as a **MEAN-stack senior developer** in a start up! Most of the work was writing reusable codes/scripts in Node.js for other junior developers. I **used ES6/7 and TypeScript** both as per need. For Frontend Angular 5 with Typescript was our choice as we worked on **PWA(Progressive Web APPS)**. Here Agility was the work mantra. I also was introduced to **Docker** and other autonomous/**continuous processes** etc... apart from interacting to clients, managing workflows in **JIRA** and leading **SCRUM** calls and Demo calls.

Ubique IT Solutions Pvt. Ltd., Ranchi Web Developer

Oct 2016 – Mar 2018

Served as front - end lead developer on the Interactive team and am also a member of a team responsible for back - end development. We use a collection of technologies for our underlying structures and it helped me gaining experience in many languages.

Discussed, analyzed and strategized project requirements with my team and clients.

Mentored Junior UI/UX designers on the team and gave training to trainees on Responsive UI Designing and Database Integration (SQL Server)

Imposed Documentation for major Projects

Successful completion of many Projects including offshore and local clients, to achieve overall growth

Freelancing Android / Web Developer

Sept 2014 – mid 2016

Served under a remote contract position for iCordinate(Hydrabad based Start-up) as a freelancer

Was responsible for SEO friendly website updates and fixes

My accomplishments included Prototyping Android apps and integration with 3rd-party APIs as per mock-ups provided

Developed concepts and ensured deliverable milestones were on time
