MANISHA

MEAN/Full Stack Web Developer

A dedicated individual with a vast array of knowledge in many different front-end and back-end languages, responsive frameworks, databases and good coding practices. I am dedicated to perfecting my craft by learning and continuously making strides to learn all that I can about development. And I believe that features like quick learning, adaptability and my understanding of problem-analysis & problem-solving have been contributing and will continue to contribute to my overall success as a developer.

EXPERIENCE

Ubique IT Solutions Pvt. Ltd., Ranchi
Web Developer
Oct 2016 – till date

Serve as front - end lead developer on the Interactive team and am also a member of a team responsible for back - end development. We use a collection of technologies for our underlying structures and it helped me gaining experience in many languages.

Discussed, analyzed and strategized project requirements with my team and clients.

Mentored Junior UI/UX designers on the team and gave training to trainees on Responsive UI Designing and Database Integration (SQL Server)

Imposed Documentation for major Projects

Successful completion of many Projects including offshore and local clients, to achieve overall growth

Freelancing Android / Web Developer
Sept 2014 – mid 2016

Served under a remote contract position for iCordinate(Hydrabad based Start-up) as a freelancer

Was responsible for SEO friendly website updates and fixes

My accomplishments includes Prototyping Android apps and integration with 3rd-party APIs as per mock-ups provided

Developed concepts and ensured deliverable milestones are met
